Summary/ Objective

A passionate, results-driven and detail-oriented software engineer with 3 years of experience, a knack for problem-solving and a love for creating implementing, testing, and maintaining efficient and scalable software solutions with the latest industry trends and technologies.

Proven ability to collaborate with cross-functional teams to deliver high-quality products on time. Seeking to contribute technical expertise and passion for innovation to a dynamic software development team.

Skills

Language:
Python, JavaScript.

Web Technologies:
HTML, CSS, Bootstrap, JavaScript, Ajax.

Frameworks and Library:
Nodejs, Django, Express, jQuery.

APIs:
Django Rest Framework, FastApi, GraphQL.

Database Management:
PostgreSQL, SQLite, MongoDB.

Tools:
Docker, Netlify, Heroku, Git.

Professional Experience

Fullstack Web Developer, TeenWolf Token Nov 2021 – Feb 2022

- Built and maintained frontend interfaces.
- Integrated third-party applications for smooth backend flow for clients' use.
- Built, maintained and managed database systems.
- Troubleshoot and resolve software defects and issues.
- Participated in code reviews to ensure adherence to coding standards and best practices.

- Presented to management on valuable software developments that were in the works.

Backend Intern, HNG Aug 2021 – Oct 2021

- Designed and implemented efficient and secured REST API endpoints.
- Created technical end-user documentation for API endpoints.
- Conducted thorough testing, identified bugs, and implemented solutions to ensure the delivery of high-quality software products.
- Collaborated with internal teams to convert feedback into meaningful and improved solutions.
- Collaborated with product managers to gather requirements and define software specifications.

Backend Intern, Zuri-I4G Mar 2021 – Aug 2021

- Gave reports to the project manager regarding current developments, and tracked changes in existing software.
- Worked remotely using version control software and deploying using Heroku.
- Oversaw a team of five software backend interns and led weekly discussions to brainstorm ideas, project progress and plan tasks.
- I learnt more about user experience, relative to backend flows for projects.

Projects

Shopit
